ClassForKids is an award-winning booking & management software designed for kids' activity clubs

We work with hundreds of franchisors and their franchisees every day. We thrive on giving you full ownership and visibility to make better business decisions while freeing up admin time for your franchisees to focus on the things that matter. **When it comes to franchises we like to focus on these 3 key areas.**

1

Support to Franchisors

Giving you control of your network as you scale.

2

Support to Franchisees

Giving your franchisees the tools they need to excel in their business.

3

Support to Customers

Giving your customers a simple and professional booking experience.

Everything you need to run your franchise with confidence

Visibility and Control

Instantly access all of your franchisee systems for full transparency. With robust encryption protocols, you can trust that your data is secure and well managed, accessible from one central place.

Data-Driven Insights

Understand data from across your network to help you make informed and reliable decisions. Use revenue reports, class capacity and trial uptake to help you optimise your network.

Brand Consistency

Elevate the customer experience by having all franchisees using the same software solution with schedule links that are easily embedded on your website for a simple booking journey.

SUCCESS STORY

“As a franchisor, your role is to support your franchisees. There will be ups and downs – cancellations and growth to manage – but ClassForKids makes it easy to see everything.”

Mark Molloy,
Soccer Stars Academy Franchisor

Providing your franchisees with a game-changing solution

With **ClassForKids**, your franchisees can manage everything in one place from parent communications, registers, trials and waiting lists – saving them hours of admin time. They can really deliver on growth too by taking payments online and using their own public schedule link to drive more bookings.

But we're more than a booking and management system. In addition to an easy onboarding experience and access to all of our comprehensive features, we offer great ongoing support (**98% satisfaction rate!**) and free access to business tools to help your franchisee upskill in areas such as social media, advertising and business growth.

ClassForKids is not only a popular introduction among existing franchisees, it's a great selling tool in any recruitment drives with prospective franchisees knowing their time doesn't have to be spent on admin and instead can be spent teaching classes and doing what they love.

10+

**hours saved on
admin a week**

2x

**growth achieved
in 6 months**

What makes us the right choice for your franchise?

Reduces Admin Time

Save 10+ hours a week on admin and give your franchisees more time back to focus on more important aspects of their business.

Improves Customer Experience

With a professional user journey, your franchisees can give parents an easy booking experience that will entice them to rebook again and again.

Keeps Everything Organised

Managing everything in one central place, your franchisees can keep on top of trials, waiting lists and ensure no payments fall through the cracks.

Achieves 2x+ Growth

With increased bookings, ClassForKids helps your franchisees grow with the tools they need to continue making the right business decisions.

Most loved features by our customers

ClassForKids takes care of the fundamentals such as **Bookings**, **Payments**, **Register Management** and **Communications** while offering additional features designed to give your franchisees the flexibility to run their business the way they see fit to achieve their goals.

Networking opportunity

Looking to connect with another Franchise like yours? We'll put you in touch with another you can chat with and learn from.

SUCCESS STORY

**“As a franchisor,
I am confident that my
franchisees are given the
support they need to set up
their system and manage
their businesses efficiently.”**

Leanne,
Drama Tots Franchisor

“You can have a great model but without a system, it won’t work. You can’t run your business on a spreadsheet with 1000+ kids every week...”

Since becoming a franchisee, Laura has successfully expanded across 4 different locations with Soccer Stars spanning the length of the country, from Ayrshire to Inverness. But why franchising? Why didn't Laura start her own academy?

Because so many of the processes were in place to get Laura off to a successful start. From session planning to operations manuals to staff management, Laura was able to create sessions to bridge the gap between playing for fun and getting into teams. And when it came to managing bookings, payments, and registers, Soccer Stars were able to provide a seamless onboarding experience to Laura and other franchisees with the ClassForKids system.

...one of the most important things in franchising is to have a system in place that allows you to grow.” *Laura, Soccer Stars Academy*

SUCCESS STORY

ClassForKids has been a catalyst for Laura's growth. By using the ClassForKids discovery site, Laura has made it easier for parents to discover and find classes in her local area alongside the booking software. With all venues, trial details, and finances available, Laura can identify areas for growth and improvement across the business.

As for the future, Laura aims to get Soccer Stars into more communities across the country through franchising, as well as continuing to develop and foster relationships with schools and nurseries – a plan she can action with ClassForKids by her side.
